

Ettore Germano

BAROLO

denominazione di origine controllata e garantita

PRAPÒ

TYOLOGY

Barolo D.O.C.G.

GEOGRAPHIC MENTION / GROWTH

Prapò

SURFACE

1.5 hectare

YEAR OF PLANTING

1967 - 1999 - 2012

VARIETY

100% Nebbiolo

ALTITUDE

330-370 m.s.l.m.

SOIL STRUCTURE

Clay, limestone with veins of sand

EXPOSURE

South - East

CLOSURE

Cork

HARVEST PERIOD

The second half of October

VINIFICATION

The grapes are hand harvested and transported in small baskets to the winery. Once the grapes arrive they are then de-stemmed and lightly crushed to undergo alcoholic fermentation in vertical steel tanks. The maceration will take place for about 40- 45 days with several pump overs happening daily, to encourage extraction of color and tannins.

After racking and malo-lactic fermentation, the wine is then placed into botti grandi (large casks) of 2,000 - 2,500 liters, where it will then mature for 18 to 24 months. After this aging the wines will then be ready to be bottled and will rest in bottle for another 12 months before being available to the market.

TASTING NOTES

Color: Garnet red with light orange reflections

Nose: Intense fragrance of dried fruits, with notes of vanilla and underlying sweet red fruits, thanks to the sand that is present in the soil.

Palate: A great balance of strength and elegance, a pleasant tannin that cleans the palate leaving a good finish of olfactory sensations.

Pairings: The most interesting of combinations are to be found in particular with first and second courses of the Piedmontese traditional foods. Also great with aged cheeses and dried fruits to sip only in good company.

PAIRINGS

stewed
wild boar

backed
pasta

Parmesan
and Bra cheese

VITICOLTORI IN SERRALUNGA D'ALBA DAL 1856
